

OMX Stockholm 30 Index

OMX Stockholm 30 is the Stockholm Stock Exchange's leading share index. The index consists of the 30 most actively traded stocks on the Stockholm Stock Exchange. The limited number of constituents guarantees that all the underlying shares of the index have excellent liquidity, which results in an index that is highly suitable as underlying for derivatives products. In addition OMXS30 is also used for structured products, e.g. warrants, index bonds, exchange traded funds such as XACT OMX and other non-standardized derivatives products. The composition of the OMXS30 index is revised twice a year. The OMXS30 Index is a market weighted price index.
