

## OMX HELSINKI 25<sup>®</sup> INDEX

### OMXH25<sup>™</sup>

#### INDEX DESCRIPTION

The OMX Helsinki 25<sup>®</sup> Index measures the performance of a selection of the most traded securities listed on Nasdaq Helsinki Ltd.

#### SECURITY ELIGIBILITY CRITERIA

To qualify for index inclusion, securities must meet the following Security Eligibility Criteria, which are applied as of the Reconstitution reference date.

##### Security universe

A security must be included in the OMX Helsinki All-Share<sup>™</sup> Index (OMXHPI<sup>™</sup>). Please refer to that methodology for further information on its constitution selection.

##### Seasoning

To be eligible for initial index inclusion, a security must have been listed and available for trading on Nasdaq Helsinki for at least three full calendar months, not including the month of initial listing. The seasoning eligibility is determined as of the Reconstitution reference date and includes that month.

Any security that is already a member of the Index, including those added as the result of a spin-off event, will be exempt from the seasoning requirement.

##### Other eligibility criteria

Companies that have filed for bankruptcy, or equivalent protection from creditors, will not be considered for initial inclusion in the Index.

A company that has entered into a definitive agreement or other arrangement that is expected to make it ineligible will not be considered for initial inclusion in the Index. Such agreements and arrangements include, but are not limited to:

- An agreement to be purchased by another entity or to become privately owned.

- A plan to delist or to transfer to an ineligible exchange.
- A plan to reorganize as an ineligible security type.
- A decision to liquidate or otherwise permanently cease operations.

Generally, a security already in the Index as of the Reconstitution reference date that will become ineligible soon after the Reconstitution effective date or a security not already in the Index as of the Reconstitution reference date would be removed from consideration.

## CONSTITUENT SELECTION

### Constituent selection process

An Index Reconstitution is conducted semiannually based on the Reconstitution reference date.

All securities that meet the applicable Security Eligibility Criteria are ranked by Nasdaq official median daily turnover in Euro (EUR) during the six (6) calendar months starting six (6) calendar months prior to the Reconstitution reference date, are considered for inclusion in the Index based on the following criterion:

- The top 25 securities ranked by turnover are selected for inclusion in the Index.

## CONSTITUENT WEIGHTING

### Constituent weighting scheme

The Index is a modified free float market capitalization-weighted index.

### Constituent weighting process

An Index Rebalance is conducted quarterly based on the Rebalance reference date.

Index Securities' initial weights are determined by dividing each Index Security's free float market capitalization by the aggregate free float market capitalization of all Index Securities. Issuer weights are the aggregated weights of the Issuers' respective Index Securities.

Initial index weights are then adjusted to meet the following constraint:

- No issuer weight may exceed 10% of the Index.

For additional information about index weighting, see **Nasdaq Index Weight Adjustment Guidelines**.

## INDEX CALENDAR

### Reconstitution & Rebalancing schedule

<b>Reconstitution Frequency</b>	Semiannually
<b>Rebalance Frequency</b>	Quarterly
<b>Reconstitution Reference Dates</b>	Last trading day of December and June, respectively

### Holiday schedule

The Indexes are calculated Monday through Friday, except on days when Nasdaq Helsinki Ltd. is closed.

### Index calculation and dissemination schedule

The Index is calculated during the trading day and is disseminated once per second from 10:00:10 to 18:35:00 local time (Eastern European Time or Eastern European Summer Time, dependent on the month of the year).

## INDEX MAINTENANCE

### Deletion policy

If at any time other than an Index Reconstitution Nasdaq determines that an Index Security has or will undergo a fundamental alteration that would make it ineligible for Index inclusion, the Index Security is removed from the Index as soon as practicable as noted in the “Mergers & Acquisitions (M&A)” section of the **Corporate Actions and Events Manual—Nordics, Baltics, & SmartBeta Equities**.

Such fundamental alterations include, but are not limited to, a listing switch to an ineligible Index Exchange, acquisition of more than 90% of outstanding shares, merger, or other major corporate event that would otherwise adversely impact the integrity of the Index.

On the last trading day before the effective date of the deletion, other than due to bankruptcy, the calculation of the Index Value for that Index Security shall be based on VWAP. On the Effective Date of the deletion, the Index Security will be removed at VWAP. For more information on the handling of bankrupt securities please refer to the “Bankruptcy” section of the **Corporate Actions and Events Manual—Nordics, Baltics, & SmartBeta Equities**.

### Replacement policy

Removed securities are not replaced except, under certain conditions, when the removed Index Security is involved in a merger. Please refer to the “Mergers & Acquisitions (M&A)” section of the **Corporate Actions and Events Manual—Nordics, Baltics, & SmartBeta Equities** for further information.

Replacement securities are added at VWAP.

### Addition policy

Securities are not added in between Index Reconstitutions unless otherwise noted under the Replacement policy section.

### Corporate actions

Information on corporate action and event handling can be found in the **Corporate Actions and Events Manual—Nordics, Baltics, & SmartBeta Equities**.

Unless otherwise noted and where possible, corporate actions are announced approximately two (2) days in advance.

The Index follows a "Market Cap Corporate Action Method for Indexes that Review Index Shares on a Periodic Basis."

### Index share adjustments

The Index follows a "Market Cap Corporate Action Method for Indexes that Review Index Shares on a Periodic Basis". Please refer to the “Index Share Adjustments” section of the **Corporate Actions and Events Manual—Nordics, Baltics, & SmartBeta Equities** for further information.

## ADDITIONAL INFORMATION

### Announcements

Nasdaq announces Index-related information via the Nasdaq Global Index Watch (GIW) website at <http://indexes.nasdaqomx.com>.

For more information on the general Index Announcement procedures, please refer to the **Nasdaq Index Methodology Guide**.

### Unexpected market closures

For information on Unexpected Market Closures, please refer to the **Nasdaq Index Methodology Guide**.

### Calculation types

For information on the Index calculation types as well as the mathematical approach used to calculate the Index(es), please refer to the **Calculation Manual – Equities & Commodities**.

### Free Float

Nasdaq has different methods to determine free float. This Index(es) utilizes the Alternate float method. For detailed definition, refer to "Alternate Float Method" section in **Nasdaq Index Methodology Guide**.

### Recalculation and restatement policy

For information on the Recalculation and Restatement Policy, please refer to the **Nasdaq Index Recalculation Policy**.

### Data sources

For information on data sources, please refer to the **Nasdaq Index Methodology Guide**.

### Contact information

For any questions regarding an Index, please contact the Nasdaq Index Client Services team at [indexservices@nasdaq.com](mailto:indexservices@nasdaq.com).

### Index dissemination

Index values and weightings information are available through Nasdaq Global Index Watch (GIW) website at <https://indexes.nasdaqomx.com/> as well as the Nasdaq Global Index FlexFile Delivery Service (GIFFD) and Global Index Dissemination Services (GIDS). Similar to the GIDS offerings, Genium Consolidated Feed (GCF) provides real-time Index values and weightings for the Nordic Indexes.

For more detailed information regarding Index Dissemination, see the **Nasdaq Index Methodology Guide**.

**Website**

For further information, please refer to Nasdaq GIW website at <https://indexes.nasdaqomx.com/>.

**FTP and dissemination service**

Index values and weightings are available via FTP on the Nasdaq Global Indexes FlexFile Delivery Service (GIFFD). Index values are available via Nasdaq’s Global Index Dissemination Services (GIDS).

**GOVERNANCE**

All Nasdaq Indexes are managed by the governance committee structure and have transparent governance, oversight, and accountability procedures for the Index determination process. For further details on the Index Methodology and Governance overlay, refer to the **Nasdaq Index Methodology Guide**.

**GLOSSARY OF TERMS AS USED IN THIS DOCUMENT**

For the glossary of key terms, please refer to the **Nasdaq Index Methodology Guide**.

**APPENDIX A: METHODOLOGY CHANGE LOG**

Effective Date	Methodology Section	Previous	Updated
8/1/2024	Security eligibility criteria: Seasoning	--	<p>To be eligible for initial index inclusion, a security must have been listed and available for trading on Nasdaq Helsinki for at least three full calendar months, not including the month of initial listing. The seasoning eligibility is determined as of the Reconstitution reference date and includes that month.</p> <p>Any security that is already a member of the Index, including those added as the result of a spin-off event, will be exempt from the seasoning requirement.</p>

Effective Date	Methodology Section	Previous	Updated
8/1/2024	Index maintenance: Addition policy	<p>Under certain circumstances, a newly listed security may be added as an Index Security between Index Reconstitutions. Use of this "Fast Entry" procedure is invoked by Nasdaq Index Management Committee to protect the integrity of the Index.</p> <p>Factors used to determine whether a security is added include the security's expected market capitalization and turnover.</p> <p>If a security is deemed eligible for Fast Entry it will be added as an Index Security as soon as practicable. The Fast Entry security will be added to the Index at VWAP of the day prior to the Effective Date of the addition and the quarterly Constituent weighting process will be applied.</p> <p>Any Index Security added via the Fast Entry procedure less than three (3) calendar months before the next Index Reconstitution will be included as an Index Security at the next Index Reconstitution. This may result in an Index Security count of more than twenty-five (25) Index Securities at the next Index Reconstitution.</p>	Securities are not added in between Index Reconstitutions unless otherwise noted under the Replacement policy section.
7/15/2024	Index maintenance: Corporate action exceptions	In the "Adjustment for Issues - Basket Method and Fixed Price Method" section of the Corporate Actions and Events Manual—Nordics, Baltics, & SmartBeta Equities, the Basket method and the Fixed Price method use VWAP.	--
