

INDEX METHODOLOGY

VINX 30 INDEX™

VINX30

INDEX DESCRIPTION

The VINX 30 Index measures the performance of a selection of the largest and most traded securities listed on Nasdaq Copenhagen A/S, Nasdaq Helsinki Ltd, Nasdaq Iceland hf., Nasdaq Stockholm AB, and Oslo Børs.

SECURITY ELIGIBILITY CRITERIA

Eligible security types

Security types generally eligible for the Index include ordinary equity shares and depositary receipts.

Multiple classes of securities

If an Issuer has multiple security classes listed, all security classes meeting the Security Eligibility Criteria are eligible.

If a single security is listed on more than one of the eligible exchanges, turnover is calculated in EUR and the most traded listing will be eligible. The turnover for all listings will be aggregated under the most traded listing and also will capture the total market capitalization of the security.

Eligible exchanges

Securities listed on Nasdaq Copenhagen A/S, Nasdaq Helsinki Ltd, Nasdaq Iceland hf., Nasdaq Stockholm AB, and Oslo Børs are eligible for inclusion in the Index.

Industry or sector eligibility

A security must not be classified as 'Equity Investment Instruments' or 'Non equity Investment Instruments' Subsectors according to the Industry Classification Benchmark ("ICB"), a product of FTSE International Limited that is used under licence.

Other eligibility criteria

The Issuer of a security where 90 % or more of the outstanding shares are controlled by a single shareholder will be deemed ineligible.

The Issuer of a security not already in the Index as of the Index Reconstitution Reference Date ("non-Index Security") may not have entered into a definitive agreement or other arrangement that would likely result in the non-Index Security becoming ineligible.

The Issuer of a security already in the Index as of the Index Reconstitution Reference Date ("Index Security") that has entered into a definitive agreement or other arrangement that would likely result in the Index Security becoming ineligible soon after the Index Reconstitution Effective Date may be removed from the Index in conjunction with the Index Reconstitution.

INDEX CALENDAR

Reconstitution schedule

Nasdaq selects constituents semi-annually in June and December to determine the Index Securities as of the Index Reconstitution Effective Date.

Reconstitution reference dates

The June Reconstitution is conducted using data as of the end of May with the exception of free float data, which is as of the end of April.

The December Reconstitution is conducted using data as of the end of November, with the exception of free float data, which is as of the end of October.

Reconstitution announcement dates

Index Reconstitution changes are announced at least five (5) trading days prior to the Index Reconstitution Effective Date.

Reconstitution effective dates

Index Reconstitution changes become effective at market open on the first trading day after the third Friday in June and December.

Rebalance schedule

The Index is rebalanced semi-annually in conjunction with the Index Reconstitution in June and December.

Rebalance reference dates

Index Security weights are determined by the total shares outstanding and free float factor used in the Index Reconstitution and closing prices as of the day prior to the Index Rebalance Effective Date.

Rebalance announcement dates

Index Rebalance changes are at least five (5) trading days prior to the Index Rebalance Effective Date.

Rebalance effective dates

Index Rebalance changes become effective in conjunction with the Index Reconstitution changes at market open on the first trading day after the third Friday in June and December.

CONSTITUENT SELECTION

Constituent selection process

A Reconstitution is conducted on a semi-annual basis, at which time all eligible securities, ranked by both free float market capitalization in Euros (EUR) and Nasdaq official aggregate turnover in Euro (EUR) measured during the six (6) calendar months starting six (6) calendar months prior to the Index Reconstitution Reference Date, are considered for Index inclusion based on the following order of criteria:

- Securities ranked within the top 25 positions of both EUR Free Float Market Capitalization and Turnover are selected for the Index.
- The remaining positions will first be filled, in rank order of EUR Free Float Market Capitalization, by any remaining Index Securities ranked within the top 35 positions of both EUR Free Float Market Capitalization and Turnover.
- In the event fewer than 30 securities pass the first two criteria, the remaining positions will be filled, in rank order of EUR Free Float Market Capitalization, by any remaining non-Index Securities ranked within the top 35 positions of both EUR Free Float Market Capitalization and Turnover.
- In the event fewer than 30 securities pass the first three criteria, the remaining positions will be filled, in rank order, by the highest EUR Free Float Market Capitalization ranked Index securities.

CONSTITUENT WEIGHTING

Constituent weighting scheme

The Index is a free float market capitalization-weighted index.

Constituent weighting process

Index Securities' weights are determined by dividing each Index Security's free float market capitalization by the aggregate free float market capitalization of all Index Securities.

For additional information about index weighting, see **Nasdaq Index Weight Adjustment Guidelines**.

INDEX MAINTENANCE

Deletion policy

If at any time other than at the Index Reconstitution, Nasdaq determines that an Index Security has or will undergo a fundamental alteration that would make it ineligible for Index inclusion, the Index Security is removed from the Index as soon as practicable as noted in the "Mergers & Acquisition (M&A)" section of the **Corporate Actions and Events Manual – Nordics, Baltics, and SmartBeta Equities**.

Such fundamental alterations include, but are not limited to, a listing switch to an ineligible Index Exchange, acquisition of more than 90% of outstanding shares, merger, or other major corporate event that would otherwise adversely impact the integrity of the Index.

On the Effective Date of the deletion, the Index Security will be removed at its prior closing price. For more information on the handling of bankrupt securities please refer to the "Bankruptcy" section of the **Corporate Actions and Events Manual – Nordics, Baltics, and SmartBeta Equities**.

Replacement policy

Removed securities are not replaced except, under certain conditions, when the removed Index Security is involved in a merger. Please refer to the "Mergers & Acquisitions (M&A)" section of the **Corporate Actions and Events Manual – Nordic, Baltic and SmartBeta Equities** for more information.

Addition policy

Securities are not added in between Index Reconstitutions unless otherwise noted under the Replacement policy section.

Corporate actions

Information on corporate action and event handling can be found in the **Corporate Actions and Events Manual – Nordics, Baltics, and SmartBeta Equities**.

Unless otherwise noted and where possible, corporate actions are announced approximately two (2) days in advance.

The Index follows a "Market Cap Corporate Action Method for Indexes that Review Index Shares on a Periodic Basis".

Index share adjustments

The Index follows a "Market Cap Corporate Action Method for Indexes that Review Index Shares on a Periodic Basis". Please refer to the "Index Share Adjustments" section of the **Corporate Actions and Events Manual – Nordics, Baltics, and SmartBeta Equities** for further information.

ADDITIONAL INFORMATION

Announcements

Nasdaq announces Index-related information via the Nasdaq Global Index Watch (GIW) website at <http://indexes.nasdaqomx.com>.

For more information on the general Index Announcement procedures, please refer to the **Nasdaq Index Methodology Guide**.

Holiday schedules

The Indexes are calculated Monday through Friday, except on days when the exchanges are closed.

Unexpected market closures

For information on Unexpected Market Closures, please refer to the **Nasdaq Index Methodology Guide**.

Calculation types

For information on the Index calculation types as well as the mathematical approach used to calculate the Index(es), please refer to the **Calculation Manual – Equities & Commodities**.

Recalculation and restatement policy

For information on the Recalculation and Restatement Policy, please refer to the **Nasdaq Index Recalculation Policy**.

Data sources

For information on data sources, please refer to the **Nasdaq Index Methodology Guide**.

Contact information

For any questions regarding an Index, please contact the Nasdaq Index Client Services team at indexservices@nasdaq.com.

Index dissemination

Index values and weightings information are available through Nasdaq Global Index Watch (GIW) website at <https://indexes.nasdaqomx.com/> as well as the Nasdaq Global Index FlexFile Delivery Service (GIFFD) and Global Index Dissemination Services (GIDS). Similar to the GIDS offerings, Genium Consolidated Feed (GCF) provides real-time Index values and weightings for the Nordic Indexes.

For more detailed information regarding Index Dissemination, see the **Nasdaq Index Methodology Guide**.

Index calculation and dissemination schedule

The Index is calculated during the trading and is disseminated once per second from 09:00:10 to 17:35:00 CET. The closing value of the index may change after market hours due to corrections to the Last Sale Price of the Index Securities.

Website

For further information, please refer to Nasdaq GIW website at <https://indexes.nasdaqomx.com/>.

FTP and dissemination service

Index values and weightings are available via FTP on the Nasdaq Global Indexes FlexFile Delivery Service (GIFFD). Index values are available via Nasdaq's Global Index Dissemination Services (GIDS).

GOVERNANCE

Index governance

All Nasdaq Indexes follow the same governance structure. For a detailed list of this information, please see the **Nasdaq Index Methodology Guide**.

Nasdaq Index Management Committee

The Nasdaq Index Management Committee approves all new Index Methodologies. This committee is comprised of full-time professional members of Nasdaq. The committee meets regularly, and reviews items including, but not limited to, pending corporate actions that may affect Index constituents, statistics comparing the composition of the indexes to the market, companies that are being considered as candidates for addition to an Index, and any significant market events.

For a detailed overview of the Index Management Committee, please see the **Nasdaq Index Methodology Guide**.

Internal reviews of methodology

For a detailed description on internal reviews of the Methodology, please see the **Nasdaq Index Methodology Guide**.

Communication with stakeholders and consultations

For a detailed description on Consultations and Communications with Stakeholders, please see the **Nasdaq Index Methodology Guide**.

Index cessation

Nasdaq has a documented procedure that is followed for Index Cessation that includes termination/retirement of an Index or Index Family.

For more information, please refer to the **Nasdaq Index Cessation Policy**.

Discretionary adjustment

This Index Methodology was created by Nasdaq to achieve the aforementioned objective of measuring the underlying purpose of each Index governed by this methodology document. Any deviations from this methodology are made in the sole judgment and discretion of Nasdaq so that the Index continues to achieve its objective.

For more information on potential adjustments including Calculation and Pricing Disruptions, Expert Judgment, and Unexpected Reconstitution/Rebalances, please refer to the **Nasdaq Index Methodology Guide**.

GLOSSARY OF TERMS AS USED IN THIS DOCUMENT

For the glossary of key terms, please refer to the **Nasdaq Index Methodology Guide**.

DISCLAIMER

Nasdaq may, from time to time, exercise reasonable discretion as it deems appropriate in order to ensure Index integrity, including but not limited to, quantitative inclusion criteria. Nasdaq may also, due to special circumstances, if deemed essential, apply discretionary adjustments to ensure and maintain the high quality of the index construction and calculation. Nasdaq does not guarantee that any Index accurately reflects future market performance.
